Enjoy Luxurious Warmth with Amana® Brand Quality

Americans have been relying on long-lasting Amana® brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including developing the first cold storage locker, being the first manufacturer to nationally market an upright freezer for home use, and introducing the first portable countertop microwave oven.

The residents of Amana, Iowa, began a long history of pioneering and craftsmanship, and that spirit continues today in the manufacturing of quality Amana heating and air conditioning products. From the technology behind our Million-Air® Heat Exchanger to the inclusion of high-quality filter driers in each of our air conditioners and heat pumps, we remain committed to the Amana brand's legacy of providing consumers with heating and cooling products that are built to last.

Why are we so proud of this furnace?

With the premier Amana brand AMVC95 Two-Stage, Variable-Speed ComfortNet™ Communicating Systems Furnace, you will own what we believe to be one of our best furnaces. Not only will this furnace provide your family with years of reliable warmth in even the harshest of winters, it will do so with up to 96% AFUE efficiency.

The heart of your Amana brand furnace is its Million-Air stainless-steel tubular heat exchanger. Formed using our dual-diameter pipe and wrinkle-bend technologies, the Million-Air is built to last. One of these heat exchangers has endured over two million extreme-temperature test cycles in our laboratory and is still going strong. The durability of this heat exchanger is one of the reasons we know your Amana brand furnace will last for years to come.

Energy Efficiency

After product safety and long-term durability, most new furnace buyers are concerned about energy efficiency. A furnace's efficiency can primarily be determined by two factors: its AFUE rating (Annual Fuel Utilization Efficiency), which indicates what percentage of each dollar of natural gas purchased is actually used to heat your home and the type of blower used in the furnace. Your new Amana brand variable-speed furnace offers up to 95% AFUE, one of the highest AFUE ratings in the industry.

And its variable-speed blower makes this furnace even more efficient. The low constant fan setting typically uses as little energy as that needed to run a 100-watt light bulb. As the furnace runs in low-heat capacity, the unit is able to deliver even warmth throughout the house. The Amana brand AMVC95 Variable-Speed Furnace is one of the most efficient furnaces we manufacture.

SureStart® Ignition System

A long-lasting silicon nitride igniter is the heart of the Amana brand Furnace's SureStart ignition system, which we believe is significantly more durable than the igniters used in many competitors' gas furnaces.

Built to Last

Your Amana® brand AMVC95 Variable-Speed Furnace's cabinet is built using high-quality, leather grain-textured, post-painted steel to resist rust and corrosion. Its elegant design and attractive two-tone architectural gray and executive gray color scheme complement other Amana brand heating and cooling equipment.

Premium Performance

We're so confident in the lasting power of your Amana brand AMVC95 Variable-Speed Furnace that we protect it with what we believe to be some of the best standard warranties* and extended service plans in the industry — including a **Lifetime Unit Replacement Limited Warranty*** for as long as you own your home. If the heat exchanger on this unit fails on the original, registered owner, WE WILL SUPPLY A NEW UNIT FOR FREE. All remaining functional parts are covered by a **10-Year Parts Limited Warranty.***

For even greater peace of mind, ask your dealer or visit our web site at www.amana-hac.com for more details about AsureSM an affordable Parts and Labor Extended Service Plan for your entire Amana brand HVAC system.†

Additional Information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

PREMIUM WARRANTY* PROTECTION

**Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation.
